

Essential Information

Instructor	Kevin Meek krmeek2@alaska.edu
Public webpage	uaf-math251.github.io/calc2
Canvas webpage	canvas.alaska.edu/courses/24107
Prerequisite	MATH F251X Calculus I; or placement.
Required text	<i>OpenStax Calculus Volume 2</i> by G. Strang & E. Herman, openstax.org/details/books/calculus-volume-2 optional paperback print copy: ISBN-13 978-1-50669-807-6

Description and Course Goals

Calculus is useful in all of the science and engineering disciplines, so it is part of the UAF core curriculum. The two principal tools from Calculus I (MATH 251), differentiation and integration, are central here too. However, this course extends your understanding of integration especially. We will also study sequences and series, Taylor series, and parametric and polar curves.

At the completion of the course, students will:

- possess mature skills in computing integrals in one variable,
- be able to apply integrals to common problems (areas, volumes, work, ...),
- understand the convergence of sequences and series,
- understand and be able to apply Taylor series and polynomials, and
- be able to use parametric and polar equations for curves.

Upon completion, students will have the mathematical foundation for success in Calculus III and other courses requiring mathematics background, including many junior/senior-level science and engineering courses.

Class Time

There are 4.5 hours of class meetings with your instructor every week:

- MWF 9:15 am – 10:15 am Duckering 341
- Th 9:45 am – 11:15 am Duckering 341

The 1.5 hour time on Thursday will be used to discuss new topics (30 minutes) and for a weekly Quiz (30 minutes). The final 30 minutes, at most, will be spent going over the Quiz. We will go over the quiz immediately so that students can leave knowing what Quiz material has been mastered, how to work each problem correctly, and what topics need additional work.

Schedule and Online Materials

The course website contains a [Schedule](#) schedule listing the textbook sections to be covered each class, the dates each Homework is due, plus the dates for Quizzes and Exams. You should consult this schedule frequently. I will announce Schedule adjustments in class.

Most course materials (Syllabus, old Quiz and Exam solutions, study materials, etc.) will be posted on the [course webpage](#). Some course materials (grades, Homework solutions, announcements, etc.) will be available on the [Canvas site](#). Each website links to the other.

Office Hours and Communication

My Office Hours are Mondays and Fridays 1:30-2:30pm in Chapman 301C, and Wednesdays 1:30-2:30pm in the Math and Stats Lab in the Student Success Center on the sixth floor of the Rasmussen Library.

Students can also schedule meetings with me outside of regular office hours, or message me via Canvas.

I will use Canvas to send announcements. If I need to contact you outside of class times, I'll try to email via Canvas. Please set the email address in Canvas to one that you check regularly!

For e-mail communication, please always include your course and section number in your e-mail. The easiest way to do this is to message me through Canvas, as this will automatically send me an e-mail with the relevant information included.

Evaluation and Grades

Grades are determined as follows. (Each component of the grade is discussed below.)

Homework	15%
Quizzes	20%
Midterm Exam 1	20%
Midterm Exam 2	20%
Final Exam	25%
total	100%

A	93–100%	C	68–75%
A-	90–92.99%	C-	not given
B+	87–89.99%	D+	65–67.99%
B	82–86.99%	D	60–64.99%
B-	79–81.99%	D-	57–59.99%
C+	76–78.99%	F	$\leq 56.99\%$

The grade ranges above are a guarantee and a lower bound. I reserve the right to increase your grade above these ranges based on the actual difficulty of the work and/or on average class performance. Any such increases will preserve grade ordering by weighted total score.

Homework

Homework assignments use a selection of problems from the textbook. Please write your Homework solutions on paper, or electronically on a tablet, and turn it in as a PDF via Gradescope. Gradescope is accessed via the [Canvas page](#). Help with scanning your Homework can be found on the [Tech Help](#) webpage. Assignments are due by 11:59pm on the date assigned; see the online schedule for due dates (currently visible on Canvas, coming soon on the public webpage). The list of problems is at the [Homework](#) tab on the public webpage.

Complete worked solutions to all Homework problems are provided in advance on the Canvas site. Therefore Homework will be graded based on **effort completion, organization, and neatness.** Illegible homework assignments will receive a zero. All students should earn 100% on homework. Of course, it is possible, to defeat the purpose of the homework by copying the solutions. This is a bad idea, and because Homework is only 10% of your grade it is not worthwhile. The Homework exists so you can learn by doing! Gradescope is configured to accept homework up to two days after the due date. After that, late homework will not be accepted under any circumstances. It is your responsibility to seek help and complete homework assignments on time.

Quizzes

A weekly Quiz will be given on Thursdays. It will be in the middle third of the 1.5 hour class. (Thursday classes are 11:30am – 1:00pm.) A Quiz will cover material which appeared on recent Homeworks, since the previous Quiz. See the [Quizzes tab on the public site](#) for coverage.

Quizzes are given under Exam conditions: books, notes, and calculators are not allowed. Performance on Quizzes is your best indicator of how well you are learning the course material, and it is a much better predictor of Exam performance than is your Homework score.

However, students will be given the immediate opportunity to grade and correct their Quizzes in the last third of the Thursday class. You can earn-back up to half the missed points by doing so accurately.

Midterm and Final Exams

There are two Midterm Exams, to be held on the dates in the Schedule on the course website:

- **Midterm Exam 1 on Thursday, 20 February**
- **Midterm Exam 2 on Thursday, 10 April**

Midterms are given during the class time.

The cumulative **Final Exam** will be held at the day/time listed as the common math time in the online schedule: **10:15-12:15 Wednesday, 30 April.** Department policy does not allow me to give an early Final Exam.

All Exams will be closed book, closed notes, and no calculator.

Make-ups

Make-up exams and quizzes may be provided at the instructor's discretion only if the student shows documentation supporting an excused absence. Excused absences include absences due to illness, travel on University or career-related business, and cultural or religious observations. Unless it is an unforeseen circumstance, arrangements must be made in advance; if unforeseen, the instructor must be notified by the following day.

Tutoring and Resources

- The Math and Stat Lab is now located in the brand new student success center on the 6th floor of the Rassmussen Building and offers drop-in tutoring.

See

www.uaf.edu/dms/mathlab/ for schedules and availability.

- Free one-on-one (or small group) tutoring is available in Chapman Building Room 201. You must schedule an appointment; see www.uaf.edu/dms/mathlab/.
- Student Support Services (uaf.edu/ssss/) offers free tutoring in many subjects to students who qualify for their program.
- ASUAF (uaf.edu/asuaf/) offers private tutoring for a small fee, based on student income.

AI usage

During proctored and on-paper Quizzes and Exams you will not have access to electronic tools of any type, nor books or notes. These assessments represent 85% of your grade.

However, feel free to use a calculator on Homework. It is also reasonable to explore new AI tools like ChatGPT, but how you guide your prompts and verify the results is what matters. Merely doing cut and paste without understanding will have no benefit. Noting that Quizzes and Exams represent the vast majority of your grade, your own thinking, as you do the homework, has the greatest benefits.

Rules and Policies**Incomplete Grade**

Incomplete (I) will only be given in DMS courses in cases where the student has completed the majority (normally all but the last three weeks) of a course with a grade of C or better, but for personal reasons beyond his/her control has been unable to complete the course during the regular term. Negligence or indifference are not acceptable reasons for the granting of an incomplete.

Late Withdrawals

A withdrawal after the deadline from a DMS course will normally be granted only in cases where the student is performing satisfactorily (i.e., C or better) in a course, but has exceptional reasons, beyond his/her control, for being unable to complete the course. These exceptional reasons should be detailed in writing to the instructor, department head and dean.

No Early Final Examinations

Final examinations for DMS courses shall not be held earlier than the date and time published in the official term schedule. Normally, a student will not be allowed to take a final exam early. Exceptions can be made by individual instructors, but should only be allowed in exceptional circumstances and in a manner which doesn't endanger the security of the exam.

Academic Dishonesty

Academic dishonesty, including cheating and plagiarism, will not be tolerated. It is a violation of the Student Code of Conduct and will be punished according to UAF procedures.

Student protections and services statement

Every qualified student is welcome in my classroom. As needed, I am happy to work with you, Disability Services, Veterans' Services, Rural Student Services, etc. to find reasonable accommodations. Students at this University are protected against sexual harassment and discrimination (Title IX), and minors have additional protections. As required, if I notice or am informed of certain types of misconduct, then I am required to report it to the appropriate authorities. For more information on your rights as a student and the resources available to you to resolve problems, please go the following site: www.uaf.edu/handbook/.

General education statement

This course is listed as a General Education Math Course. As such this course is expected to *contribute to meeting the following* four general learning outcomes:

1. Build knowledge of human institutions, sociocultural processes, and the physical and natural works through the study of mathematics. Competence will be demonstrated for the foundational information in each subject area, its context and significance, and the methods used in advancing each.
2. Develop intellectual and practical skills across the curriculum, including inquiry and analysis, critical and creative thinking, problem solving, written and oral communication, information literacy, technological competence, and collaborative learning. Proficiency will be demonstrated across the curriculum through critical analysis of proffered information, well-reasoned solutions to problems or inferences drawn from evidence, effective written and oral communication, and satisfactory outcomes of group projects.
3. Acquire tools for effective civic engagement in local through global contexts, including ethical reasoning, intercultural competence, and knowledge of Alaska and Alaska issues. Facility will be demonstrated through analyses of issues including dimensions of ethics, human and cultural diversity, conflicts and interdependencies, globalization, and sustainability.
4. Integrate and apply learning, including synthesis and advanced accomplishment across general and specialized studies, adapting them to new settings, questions and responsibilities, and forming a foundation for lifelong learning. Preparation will be demonstrated through production of a creative or scholarly product that requires broad knowledge, appropriate technical proficiency, information collection, synthesis, interpretation, presentation and reflection.

Official UAF Syllabus Addendum

Student protections statement: UAF embraces and grows a culture of respect, diversity, inclusion, and caring. Students at this university are protected against sexual harassment and discrimination (Title IX). Faculty members are designated as responsible employees which means they are required to report sexual misconduct. Graduate teaching assistants do not share the same reporting obligations. For more information on your rights as a student and the resources available to you to resolve problems, please go to the following site:

<https://catalog.uaf.edu/academics-regulations/students-rights-responsibilities/>.

Disability services statement: I will work with the Office of Disability Services to provide reasonable accommodation to students with disabilities.

Student Academic Support:

- Speaking Center (907-474-5470, uaf-speakingcenter@alaska.edu, Gruening 507)
- Writing Center (907-474-5314, uaf-writing-center@alaska.edu, Gruening 8th floor)
- UAF Math Services, uafmathstatlab@gmail.com, Chapman Building (for math fee paying students only)
- Developmental Math Lab, Gruening 406
- The Debbie Moses Learning Center at CTC (907-455-2860, 604 Barnette St, Room 120, <https://www.ctc.uaf.edu/student-services/student-success-center/>)
- For more information and resources, please see the Academic Advising Resource List (https://www.uaf.edu/advising/lr/SKM_364e19011717281.pdf)

Student Resources:

- Disability Services (907-474-5655, uaf-disability-services@alaska.edu, Whitaker 208)
- Student Health & Counseling [6 free counseling sessions] (907-474-7043, <https://www.uaf.edu/chc/appointments.php>, Whitaker 203)
- Center for Student Rights and Responsibilities (907-474-7317, uaf-studentrights@alaska.edu, Eielson 110)
- Associated Students of the University of Alaska Fairbanks (ASUAF) or ASUAF Student Government (907-474-7355, asuaf.office@alaska.edu, Wood Center 119)

ASUAF advocacy statement The Associated Students of the University of Alaska Fairbanks, the student government of UAF, offers advocacy services to students who feel they are facing issues with staff, faculty, and/or other students specifically if these issues are hindering the ability of the student to succeed in their academics or go about their lives at the university. Students who wish to utilize these services can contact the Student Advocacy Director by visiting the ASUAF office or emailing asuaf.office@alaska.edu.

Nondiscrimination statement: The University of Alaska is an affirmative action/equal opportunity employer and educational institution. The University of Alaska does not discriminate on the basis of race, religion, color, national origin, citizenship, age, sex, physical or mental disability, status as a protected veteran, marital status, changes in marital status, pregnancy, childbirth or related medical conditions, parenthood, sexual orientation, gender identity, political affiliation or belief, genetic information, or other legally protected status. The University's commitment to nondiscrimination, including against sex discrimination, applies to students, employees, and applicants for admission and employment. Contact information, applicable laws, and complaint procedures are included on UA's statement of nondiscrimination available at www.alaska.edu/nondiscrimination. For more information, contact:
